Daniel Zwickel, Francisco Herrera: Music  
Carla De Sola, Katherine Robbiano: Movement/Dance**

Dear friends who share a vision of justice and peace:

We are writing to ask for your support for the upcoming Good Friday Interfaith Service of Worship and Witness to be focused on the Livermore Nuclear Weapons Lab.

Livermore Lab was founded to develop the hydrogen bomb. New weapons of mass destruction are still designed there. For more than 35 years, people of faith and others concerned about the ongoing proliferation of nuclear weapons have gathered on Good Friday outside the Laboratory in Livermore. We strive for the healing of all nations. We envision and work for repair, reconciliation, restoration, transformation.

The Good Friday Interfaith Witness at the Livermore Lab has been held every year since 1983. **This year's service will be a hybrid event, also by Zoom ~ Find the link at [www.epicalc.org](http://www.epicalc.org)**. We are planning a historic talk on nonviolent action and the need for nonviolence by David Hartsough, AFSC.

We invite your participation in this event, your financial support, and, if possible, your organization's co-sponsorship. Donations can be made by check or by PayPal online, using the Donate button in the EPI website. **Please indicate if your contribution represents organizational co-sponsorship.** If not, please just let us know your affiliations, for future networking.

Please reference "Good Friday" or "Livermore" on your check or in Paypal. See flip side, fill out and return by mail or alternatively by email along with your online co-sponsorship payment.
